The paper has some mistakes. This summary keeps the **structure** and shows the corrected numbers, with every mistake listed in section 5.

1. How the fees are built

• **Karo (school fees):** 3,000,000 a year in 3 parts of 1,000,000 — January, April, July (Class VII only).
• **The amount depends on 2 things:** gender (girl / boy) and religion (Muslim / Christian). So there are **4 fee plans**.
• **Matumizi (student needs)** = all items in the list, except the 4 separate fee lines (exams, June program, graduation, study tour).
• **Some lines are split** over the year: milk and margarine 100,000 = 50,000 in January (inside matumizi) + 50,000 in July; study tour 100,000 = 50,000 April + 50,000 July; pocket money 50,000 = 30,000 January + 20,000 July.
• Payment is made **at the bank**; bring the original bank slip (BPS) with the student's full name and class.

"Fee" lines are charged in the fee plan, not as matumizi. "Majaladio ya daftari" means exercise book covers — so "Majaradio" on the Boys and Girls Secondary papers is most likely the same thing (book covers).

4. Rules

• **Arrival:** 8:00am–4:00pm on working days only. No reception at weekends. A pupil who does not come before the set date loses the place.
• **Transport:** the parent brings the child to school.
• The form must be filled in and returned to school on reporting day.

5. Mistakes on the paper

Where	On the paper	Correct
Christian boy — matumizi total	860,000	870,000 (820,000 + 50,000)
Christian girl — matumizi total	870,000	860,000 (810,000 + 50,000)
Karo instalments	Page 1: 3 parts. Page 2 note: 1, 2, 3 or 4 parts	Table has only 3 parts (Jan, Apr, Jul) — confirm
Madaftari (exercise books)	70,000, no quantity	Confirm how many books
Spelling	"kujilkimu"	"kujikimu"

The two Christian matumizi totals are **swapped**. All the plan totals (4,470,000 / 4,480,000 / 4,430,000 / 4,420,000) are correct. No bank accounts are shown on these 3 pages.

6. What this means for the Musabe system

1. **Fee plan per school + class + year**, with a version for each **gender and religion**. The student record needs gender and religion.
2. **Fee lines with a schedule:** each line says how much is paid in each instalment (e.g. study tour 50,000 April + 50,000 July).
3. **Matumizi package** = items picked by gender and religion; the system adds it up, so mistakes like the swap above cannot happen.
4. **Item types:** uniform, stationery, other goods (stock), services and food (no stock), and fees (not matumizi).
5. **Same item, different price per school** (e.g. sweater 25,000 everywhere, but special track 85,000 here vs 100,000 at secondary).
